

Targeting Liver Diseases 2014 Speakers

The Scientific Committee of the 1st International Conference on Targeting Liver announces the preliminary program and list of speakers for June World Congress.

The Role of Specific Sphingolipids in Liver Diseases

Yael Pewzner-Jung, Weizmann Institute of Science, Rehovot, Israel

Diabetes and Liver: Recent Advances & Perspectives

Itamar Raz, Hadassah Ein Kerem Hospital, Jerusalem, Israel

Role of The Nitric Oxide Signaling in Cholesterol-Induced Liver Damage

Oren Tirosh, The Hebrew University of Jerusalem, Rehovot, Israel

MicroRNA in Liver Diseases: Recent Advances & Perspectives

Eithan Galun, Hadassah Hebrew University Hospital, Jerusalem, Israel

The Role of NLG4 between Insulin Resistance and Innate Immunity in Fatty Liver Disease

Rifaat Safadi, Hadassah Medical Center, Jerusalem, Israel

Anti-Oxidants in Liver Disease: Recent Advances and Perspectives

Oren Shibolet, Hadassah-Hebrew University Medical Center, Jerusalem, Israel

Liver Repopulation Following Toxic Liver Injury - Which Genes Have Most Impact?

Klaus H. Kaestner, University of Pennsylvania School of Medicine, Philadelphia, USA

Stellate Cells in Hepatic Fibrogenesis and Protection by a Novel Modulator

Raj Lakshman, The George Washington University, Washington, USA

Interaction of Nutrition, Pouches, Microbiome and Oxidative Stress

Nitsan Maharshak, Tel Aviv Sourasky Medical Center, Tel Aviv, Israel

Hepatic Paraoxonase-1 (PON1) Regulation: Recent Advances & Perspectives

Bianca Fuhrman, Technion Faculty of Medicine and Rambam Health Care Campus, Haifa, Israel

Mitochondria-Microbiota: The Intriguing Relationship

The future of medicine coming through bacteria

Marvin Edeas, Chairman of Targeting Mitochondria Task Force Group, Paris, France

Inflammation & NAFLD: Recent Advances & Perspectives

Ran Oren, Hadassah Medical Center, Jerusalem, Israel

Vitamin E & Diabetic Nephropathy: Lessons & Clinical Implications

Farid Nakhoul, Bar Ilan University Ramat Gan, Lower Galilee, Israel

Obesity and Liver: Are Dietary Polyphenols Adipose Tissue Modulators?

Yishai Lévy, Rambam Health Care Campus, Bat Galim, Haifa, Israel

The Microbiome & Liver Diseases: Towards a New Understanding

Christoph Thaiss, Weizmann Institute of Science, Rehovot, Israel

Role of Lysophosphatidic Acid Receptor Dependent Signaling in Hepatic Tumor Cell Proliferation and Motility

Valentina Zuckerman, Carolinas Medical Center, Charlotte, USA

Converting Liver to Pancreas- Cell replacement therapy for Diabetes **Sarah Ferber**,
Sheba Medical Center, Tel-Hashomer
, Israel

Biengineering Lives for Transplantation

Shay Soker, Institute for Regenerative Medicine, Winston-Salem, USA

SIRT1 Induction by P53 Inhibition Attenuates Hepatic Ischemia/Reperfusion Injury

Chung Hun Taeg, University of Ulsan, Ulsan, Korea

Human Cell Responses during Initial Steps of Hepatic Infection with *Entamoeba*

Histolytica, the

Etiological Agent of Amoebiasis

Daniela M. Faust, Institut Pasteur, Paris, France

Role of Adiponectin in the Antisteatotic Effect of Cannabinoid-1 (Cb1) Receptor Blockade

Yossi Tam, The Hebrew University of Jerusalem, Jerusalem, Israel

Mathematical Modeling of the Liver Metabolism under Normal and Pathophysiological Conditions

Hermann-Georg Holzhütter, Charité – Universitätsmedizin, Berlin, Germany

Protection Exerted by levosimendan against Liver Peroxidative Injuries

Elena Grossini, Azienda Ospedaliera Universitaria Maggiore della Carità, Novara, Italy

The uPA / uPAR system contributes to the development of the metabolic syndrome and non-alcoholic fatty liver disease

Nicole Paland, Rambam Health Care Campus, Haifa, Israel

More speakers will be added soon...
