

Targeting Mitochondria 2013 was a huge success. More than 140 attendees coming from France, Spain, Italy, UK, Japan, Denmark, USA, Switzerland... and working for industries and academies gathered in Berlin last October 17-18, 2013.

More than 30 speakers discussed about the recent advances in researches about mitochondria, devices and clinical studies.

The abstracts book of the conference is now available. You can order it [by clicking here](#).
